

HIRING – MID-LEVEL LARAVEL DEVELOPER (for POS)

HotashTech is a tiny software agency in Bangladesh that develops and maintains e-commerce and POS applications using Laravel.

We're looking for a passionate Laravel developer who enjoys solving real-world problems, writes clean code, and takes ownership of their work. If you love Laravel and have experience building POS applications, we'd love to hear from you.

Position

Mid-Level Laravel Developer

Salary

৳30,000 – ৳40,000 (Negotiable)

Office

Mirpur 10 Circle, Dhaka-BD. (On-site)

Requirements

- Strong experience with Laravel.
 - Git is mandatory (branching, pull requests, merge conflict resolution, etc.).
 - Must follow Laravel best practices, coding standards, and framework conventions.
 - Strong hands-on experience with Livewire and Alpine.js.
 - Good knowledge of jQuery.
 - Previous experience developing and maintaining POS applications (Required).
 - Ability to write clean, maintainable, and scalable code.
 - Strong debugging and problem-solving skills.
-

What You'll Do

- Develop new features for our POS platform or develop a POS/Ecommerce from scratch.
 - Maintain and improve existing Laravel applications.
 - Build responsive and interactive UIs using Livewire, Alpine.js, and jQuery.
 - Integrate third-party APIs and services.
 - Optimize application performance and scalability.
 - Collaborate with designers, testers, and fellow developers.
-

About This Role

We're a tiny and will be a fast-growing team. This means you'll have the opportunity to own features from idea to deployment and make a real impact on our products.

Some days you'll collaborate closely with the team, while other times you'll need to work independently and take ownership of your tasks. If you enjoy taking initiative, solving problems, and getting things done without constant supervision, you'll fit right in.

Why Join HotashTech?

- Work on software used by real businesses every day.
- Friendly and supportive work environment.
- Opportunity to learn, grow, and take ownership.
- Build products that make a real impact.

How to Apply

Send your CV to:

career@hotash.tech

Bonus points if you include:

- GitHub Profile
- Portfolio
- Previous POS projects you've worked on
